Special! Infinite Conjugate Micro Video Imaging Lenses

[[Specification Table](#) | [Helpful Literature](#) | [Product Matrix](#) | [Technical Images](#)]

- 2.9mm Focal Length
- Multi-Element Design
- Large Field Coverage
- Discounted from \$47.00 to \$12.00

Designed for use in micro CCD board cameras, these lenses provide excellent image quality in a small, versatile package. Optimized to cover 1/3" CCD formats, they are an ideal choice for wide angle and close focus applications. All lenses are threaded for M12 x 0.5. Prescription data is available for authorized optical designers who wish to use these lenses on an OEM basis. Authorization can be obtained by contacting our Application Engineering staff at 800-363-1992 or at techsup@edmundoptics.com or by submitting our [Prescription request form](#).

Note to OEM Customers: These lenses are available in limited quantities only. OEM designers should reference our **new design** infinite conjugate micro video lenses [available here](#).

Note: Edmund Optics has lowered these lenses' price from their normal **\$47.00** down **74%** to their current price of **\$12.00!** **Supplies are limited!**

Specification Table

Focal Length (mm)	Max. CCD Format	f/#	Angular FOV	Min. Working Distance	Minimum FOV*	A (mm)	B (mm)	C (mm)	D (mm)	Mounting Thread
2.90	1/3"	F2.0	>79°	200mm	330mm	19.0	25.50	6.71	—	M12 x 0.5

* Angular FOV is listed as horizontal field for max. CCD format.
